## MANAGEMENT DISCUSSION AND ANALYSIS

#### **BUSINESS OVERVIEW**

For the Reporting Period, the Group was engaged in three business segments, (1) coal mining business; (2) renewable energy business and (3) IT Services (as defined below) business. Our main business is coal mining and sales of coal in Xinjiang Uygur Autonomous Region ("Xinjiang") of the People's Republic of China (the "Mainland China"). Xinjiang is remote from major industrial cities in the Mainland China, and hence coal produced in Xinjiang is mainly consumed locally due to the logistic and the transportation costs. On 8 October 2018, we completed the acquisition of NEFIN Leasing Technologies Limited and its wholly owned subsidiary, NEFIN Technologies (Malaysia) Sdn. Bhd. (together the "NEFIN Group") which is principally engaged in renewable energy solutions in Malaysia. We further allocated resources into the solar energy projects since then so as to enable higher efficiency together with the existing solar assets. On 23 April 2019, we completed the acquisition of Harbour Group Holdings Limited ("Harbour Group Holdings") and its subsidiaries (collectively the "Harbour Group") which is principally engaged in the provision of information technology ("IT") outsourcing, consultancy and technical services (together referred to as "IT Services") mainly in Hong Kong with expanding business in the United Kingdom ("UK"), Malaysia and Singapore. Our Group will continue our focus on developing the existing business. In the long run, we will aspire and strive to grow into an enterprise with a diversified business.

The increase in revenue of the coal mining business was mainly due to the strong local demand and facilitated supply arrangement by the local authorities; and also due to increase in selling price. The Group sold approximately 1,150,887 tonnes (2020: approximately 163,236 tonnes) of coal during the Reporting Period, increased by approximately 605.0% in volume compared to that in the previous corresponding period.

## **Renewable Energy Business**

During the Reporting Period, the renewable energy business recorded a revenue of approximately HK\$1,893,000 (2020: approximately HK\$384,000). The increase in revenue of approximately 393.0% of the renewable energy business was mainly due to the enhanced production capacity during the Reporting Period.

## **IT Services Business**

During the Reporting Period, the IT Services business contributed a revenue of approximately HK\$11,072,000 (2020: approximately HK\$13,167,000). The decrease in revenue of approximately 15.9% was mainly due to the keen competition from the IT Services sector and the subsistence of the Coronavirus Disease 2019 ("COVID-19") in Hong Kong and worldwide.

This was mainly due to the combined effect of (1) the additional maintenance cost of approximately HK\$677,000 and the increase of low-value consumables and accessories of approximately HK\$322,000 as a result of the significant increase of sales volume of coal mining business during the Reporting Period; and (2) the increase in salaries and allowances and staff welfare mainly at coal mining business for approximately HK\$1,221,000 during the Reporting Period.

The amounts were assessed and reviewed by the Directors and reviewed or audited by the auditor of the Company. According to the relevant accounting policies, the increase in fair value of the Convertible Bond represents an increase in liabilities of the Company. The significant change in fair value of the Convertible Bond was mainly due to the significant change in the stock price of the Company and the expected volatility of the stock price of the Company were HK\$0.13 and HK\$0.09 as at 30 September 2021 and 31 March 2021, respectively, and the expected volatility of the stock price of the Company was 100.05% and 88.74% based on the historical price volatility of the Company for the six months ended 30 September 2021 and for the year ended 31 March 2021, respectively.

## PROSPECTS

The Group actively proceeded with the Optimization and Upgrading Plan since 2011 in relation to the New Mining Right of the Enlarged Kaiyuan Mine. The Acquisition enlarged the Group's coal resources and allowed the Group to enhance the development of its sales operations of Kaiyuan Mine in the future. The Directors consider that the transaction is in line with the Group's strategy to expand the coal mining business of the Group. Subsequent to the Reporting Period, Kaiyuan Company has successfully renewed and received the renewed New Mining Permit issued by the Xinjiang Natural Resources Department, pursuant to which the term of the mining right of the Enlarged Kaiyuan Mine is renewed for a period of 10 years.

In the coming periods, there will be (i) a reasonable expected amount of expenditure in capital assets, in particular for the new plants and machines for the environmental protection remedial works and (ii) reasonable expenditure for works required by the Safety Bureau to improve safety standard of our coal mine. Sources of funding are expected to come primarily from the coal sales revenue and external banking facilities of the Group.

In addition to coal mining, the Group has been exploring new markets and seeking to develop its business coverage on technological and renewable energy sectors, in particular, the acquisition of Harbour Group in 2019 and NEFIN Group in 2018. It is one of the objectives of the Group to diversify its business portfolio into sectors offering higher growth momentum.

Due to the prolonged outbreak of COVID-19 in Hong Kong and worldwide, we are facing the difficult business environment, which negatively impact the growth of our business. In particular IT Services business in Hong Kong is expected to be hit hard by the keen competition from the IT Services sector and the subsistence of the COVID-19 in Hong Kong and worldwide.

The Board will continue to keep track of the latest development of the COVID-19 and will use its best endeavors to manage the Group's business portfolio with a view to improving the Group's financial performance and enhancing shareholders' value.
